1. How to use this Guide

This Course Enrolment Guide 2008 provides you with information on the units you will require completing your course; and when and where the units will be offered in 2008.

Steps to enroll in units for 2008

1. Read Section 2. ‘Program Information’ for information on course structure and unit sequence. Take note of any prerequisite or co-requisite requirements before selecting particular units.

2. Refer to the unit listings in Section 3. ‘Units Offered in 2008’ to select your units. Take note of the study period in which units are offered.

3. You must refer to ‘Enrolment Information 2008’ on the ACU intranet for information on how to complete your enrolment via Student Connect*. ‘Enrolment Information 2008’ also provides information on study period definitions, modes of study, campus locations, dates for each study period and census dates.

4. Log on to Student Connect – Managing Your Studies* and enroll.

Contacting your Adviser

Course Coordinators/advisers will be available to assist you with re-enrolment. If you have any queries you may ring, e-mail or see them in person.

* Student Connect is a web interface allowing students to complete their ACU National enrolment online.
2. Program Information

Structure of the Program

The Graduate Certificate in Clinical Education consists of four core units. Students will be required to complete all four 10 credit point units (40 credit points) to be eligible for this award. It is expected that most students will complete the course part-time over two semesters, commencing in Semester 1.

In Semester 1, students will complete two introductory units, one exploring theoretical principles of learning and teaching and the other applying those principles to the practical aspects of facilitating clinical learning in simulated or real life situations in health workplace settings.

In Semester 2 units will reflect increased complexity with exploration and application of principles of assessment and evaluation and developing the consultation and negotiation skills required to overcome challenges in facilitating learning in dynamic health workplace settings.

Study Load
Part time study typically involves no more than two units per semester; full time involves three or four units per semester.

Students should contact that National Coordinator or the Course advisors prior to enrolment if they are unsure of what units to select.

Unit outlines and assessment requirements
Unit outlines with details of textbooks and assessment requirements will be provided at the commencement of the Semester.
