Session Information

**Teaching the next generation: Primary / Early Childhood**
- Sessions focus on the new approaches to education with students participating in three 40 minute programs.
- Differences in how children learn.
- Fundamentals of teaching: music, maths literacy and science.
- A qualified teacher will speak at the end of the session about working as a teacher and on the positives and negatives of teaching.

**Insights into saving lives: Paramedicine**
- Gain an insight into being a paramedic through footage of paramedics in emergency situations.
- Learn about CPR relevant to emergency nursing and paramedicine.
- Ambulance familiarisation - looking inside a real ambulance.
- A qualified paramedic will speak at the end of the session about working as a paramedic and the positives and negatives of working in the field.

**Travel the world: Nursing:**
- Learn about the fundamentals of nursing.
- Experience the science laboratory to understand the human body.
- Nursing laboratory: using stethoscopes, health assessment techniques, thermometers.
- Hear from a Nursing graduate about how university practical experience has assisted in the work force.
- Listen to an experience nurse who has worked in different nursing environments including community nursing, hospitals, district nursing and aged care.

**A helping hand: Student Life**
- How to apply to university.
- ACU National's Early Achievers Program.
- Student Life: learn what uni is all about from one of ACU National's current students.
- Campus Race: discover the Ballarat Campus through an exciting treasure hunt.
- Surviving Year 12: Blue Earth Relaxation techniques for exam preparation.
