

Emergency and safety

Emergency evacuation procedures are established for Brisbane Campus and drills are held periodically to familiarise all occupants. An Emergency Control Organisation with fully trained wardens looks after these procedures at the University. All General Learning Areas have evacuation notices posted.

Sprinklers, smoke detectors and alarms are fitted throughout the campus and ACU security and campus staff are automatically notified when an alarm is activated. If an emergency occurs, follow the directions of Designated Fire Wardens recognisable by their hats and red vests. If no staff are present, leave the building by the nearest fire-isolated stairwell or exit (follow the green exit signs).

In the event of an emergency, you will hear an alarm at which point you should prepare to evacuate. Flashing lights on all levels show orange for prepare and red for evacuation.

Security

Security Officers patrol the campus. If you need to contact Security, you can call 888 from any of the house phones in the University.
