Learning and Teaching Framework 2014 - 2017

learning for life

ACU
AUSTRALIAN CATHOLIC UNIVERSITY
Six hallmarks of learning and teaching at ACU provide the framework for implementation of Learning for Life to transform the future direction of learning and teaching at the University. The hallmarks are:

- Distinctive ACU graduates
- Excellent teaching practices
- Excellent learning experiences
- International, culturally diverse and equitable education
- Research-informed teaching
- Value and reward great teaching

The hallmarks support goals to be implemented over the next four years across ACU to ensure our reputation for excellence in learning and teaching.

In 2013 workshops were held across all campuses and over 150 staff from faculties and directorates participated in the development of the Learning and Teaching Framework. Consultations were then held with a number of key ACU groups on the development of Learning for Life which will be an enabling plan for the ACU Strategic Plan 2015-2020. Learning for Life will be reviewed annually.
GUARANTEE THE DISTINCTIVENESS OF THE ACU GRADUATE

Ensure that ACU’s graduate attributes are embedded in the curriculum, with course design evidencing the teaching and assessment of academic and information literacy and numeracy, as well as graduate attributes — for example with the introduction of cornerstone and capstone units, including an exit point diagnostic for graduate attributes.

MEASURING SUCCESS
Success will be determined when 75% of all ACU graduates are within the top quartile of academic and information literacy, and 50% of all students are within the top quartile of academic numeracy in the capstone diagnostic determined for the course.

RESPONSIBILITY AND TIMELINE
Provost, DVCSTL and Executive Deans by 2016 for first year units; 2017 for second year units; 2018 for third year units; and, 2019 for fourth year units.

Increase opportunities for experience-based learning, informed by industry and professions, and designed to meet work force needs, to give students the opportunity to participate in real world work experience in all undergraduate courses. Examples include clinical and teacher placements, internships, volunteering, practicums and simulations.

MEASURING SUCCESS
Success will be determined when 70% of all ACU students have the opportunity for an experience-based learning opportunity as part of the undergraduate curriculum.

RESPONSIBILITY AND TIMELINE
Provost, DVCSTL and Executive Deans by 2017.

Design and deliver curriculum through the lens of the Catholic Intellectual Tradition, ensuring our graduates are known for having excellent discipline-based knowledge, are highly skilled in their chosen fields, ethical in their behaviour, have a developed critical habit of mind, an appreciation of the sacred nature of life and a commitment to serving the common good.

MEASURING SUCCESS
Success will be measured by evidence from the Faculties of the embedded nature of these elements of the curriculum. Evidence of the effectiveness and impact of the core curriculum and community engagement will be measured via the University Experience Survey, Course Evaluation Questionnaire, Graduate Destination Survey (the last two being part of the Australian Graduate Survey), and any other relevant data that measures the learning experience and employability of our graduates in the work place.

RESPONSIBILITY AND TIMELINE
Provost, DVCSTL and Executive Deans by 2017.

Offer courses and majors that ensure ACU graduates are highly employable in a global 21st Century environment.

MEASURING SUCCESS
