

The faculty of Health sciences

POSITIONING STATEMENT

The Faculty of Health Sciences aims to be a world leader in its field; recognised for excellence in education, research, service and community engagement in the Health Sciences, striving to promote the dignity of all and the common good.

VALUES

Excellence

Pursuing excellence in education, research, engagement and service in the Health Sciences. Our mission is advanced through innovation, understanding and working towards the highest quality standards, and being courageous and resilient.

Dignity

Respecting the value and worth of each person. We centre ourselves on respect, compassion, integrity and inclusiveness with all people and communities. Dignity of the individual is at the heart of our interactions, relationships and partnerships.

Engagement

We are responsive to all of our students and stakeholders. We take a collaborative and collegial approach with flexibility to continuously improve health and wellbeing and serve local, national and international communities.
