

Bachelor of Education (Primary and Special Education) 2027 Course Transition Student FAQ and Decision Guide

Frequently Asked Questions (FAQs)

What is changing in 2027?

- The updated **Bachelor of Education (Primary)** course will include **Major: Special Education**.
- The current **Bachelor of Education (Primary and Special Education)** will be discontinued for new students. No enrolments will be accepted from 2027.
- There have been some updates to Education units that will take effect from 2027 for all students.
- The Testamur (certificate) for the course will list the award as ***Bachelor of Education (Primary)***.
- **The Major: Special Education** will be listed clearly on your transcript.

What does this mean for me?

If you choose to transfer to the **Bachelor of Education (Primary)** you will benefit from:

- a more **current and streamlined** course structure
- no loss of credit, all completed units in your current course will be recognised
- the chance to complete your course in the same timeframe

Should I transfer to the new course?

We would encourage all students who will benefit from a more current and streamlined course structure to transfer to the **Bachelor of Education (Primary) with Major: Special Education**.

Credit will be applied for all units included where eligible, or their equivalents, ensuring that your current progression is maintained.

What happens if I remain in my current course?

Students who remain in their current course will need to complete the course rules for that course.

Where there have been updates to Education units, these updates will be included in your course. This will ensure that your course is up-to-date with the latest teaching and assessment requirements.

What if I am intending to graduate mid-year in 2027?

In 2027 we will offer some 4th year units in their current study periods in the first half of the year to ensure that students intending to graduate mid-year will continue to be able to do so.

Please note that these extra unit offerings are not shown on the map at the end of this document. Your personalised map will identify these units and their study periods for you.

Decision Guide for Bachelor of Education (Primary and Special Education) Students

This decision guide is intended to assist students in Bachelor of Education (Primary and Special Education) in determining whether you should transfer to **Bachelor of Education (Primary) with Major: Special Education** or remain in the current course.

- **Students in Year 1 in 2026 transitioning to Year 2 in 2027**

- **Students in Year 4 in 2026 completing mid-year 2027**
 - Limited benefit in most cases
 - Remaining in your current course is likely to be most suitable

2027 Course Map and Unit Equivalence

The following information is provided to support you to understand how your course will be offered from 2027.

The following Education units will be updated in 2027. The old units will not be offered from 2027.

- *If you transfer to the new course, these units are considered equivalent and you will get credit for the new unit if you have completed the old one.*
- *If you remain in the current course, you may need to study a new unit in place of the old one on your current map.*
