

Students planning to transfer to a teaching qualification course.

Students enrolled in the Diploma in Educational Studies (Tertiary Preparation) may be part of this program because they did not meet the subject Entry Requirements for a Bachelor-level teaching qualification. Students can meet these outstanding Entry Requirements by completing one of ACU's Foundation Units.

Outstanding Entry Requirements for Mathematics and/or English will be met on the completion of a Foundation Unit as shown below.

Foundation Units which meet Entry Requirements

	Mathematics	English
QLD students	EDMA111 Introductory Mathematics	EDLA111 Introductory English
VIC students	EDMA111 Introductory Mathematics	EDLA111 Introductory English
NSW students	EDMA150 Exploring Mathematics and Numeracy (study instead of EDES104)	EDEN100 Foundations of Literacy

As these units are exclusively used to meet Entry Requirements, EDMA111 and EDLA111 cannot be credited into a Bachelor-level teaching qualification after a future transfer.

More specific information relating to the entry requirements for the teaching degree can be found on ACU website via this link <https://www.acu.edu.au/study-at-acu/find-a-course/teaching>
