DOUBLE MAJOR OPTIONS

On the following pages are the majors offered by the Peter Faber Business School and the campuses they are offered for you to choose from. If you choose to undertake a double major, you must complete **all units** listed in each Major you undertake.

Notes for consideration regarding Double Majors:

- All units within a major require 'assumed knowledge'. This knowledge is gained by completing the Foundation Units.
- Not all majors are offered on every campus. Be sure to check if the majors you want are both available on the campus you are attending.
- Be sure to check units with prerequisites. You will not be able to enrol into a unit if you have not successfully completed the prerequisite units first.
- Only the "Non-Accredited" Accounting major is listed below. The "Accredited" Major cannot be joined with another Major as it requires 12 Accounting units (Accounting Major and the Accounting Minor units combined). We suggest the "Accredited" Accounting Major be joined with a [minor](#).
- If there is a duplicate unit in both majors that you want to complete, you cannot use the duplicate unit in the second major. Please contact business.ug@acu.edu.au for alternative unit options.
- A double major can be completed within the standard or fast-tracked course period and will not add an extra semester to your enrolment.

Following is the list of units required within each major:
