

Fact sheet two

Project overview

The development plan includes staged renovation and construction over the next 10 years.

This includes two principal buildings:

1. Transforming the current flat carpark at the corner of Napier Street and Victoria Parade to provide a 12-storey teaching and academic space with underground parking for 270 vehicles and increased spaces for student collaboration and recreation.
2. Replacing the existing Young Street carpark with open space and a new, triangular three-storey building.

The proposal will contribute to a pedestrian-focused campus hub, more open spaces, upgraded student amenities including green space, recreation facilities, and allow ACU to consolidate off-site teaching spaces to accommodate student, staff and research growth.
