

Construction of the Saint Teresa of Kolkata Building is currently underway on ACU's Melbourne Campus. See the latest progress on [webcam 1](#) and [webcam 2](#).

Four-week outlook: How you may be affected

Area	Impact	Timing
Mary Glowrey Building (MGB) roof	Steel will continue to be installed on the MGB roof. Please expect intermittent noise and pay attention to traffic controllers' instructions when walking near the building. Works notification emails will be issued advising of specific dates and times that these works may impact staff and students.	March 2020
Young Street	A concrete pump will be located in Young Street on Saturday 29 February from 8am to 5pm. Young Street will be closed to vehicles and access to the Young Street carpark will be via Gertrude Street. Pedestrian access will not be affected. Traffic controllers and signage will be in place to assist with pedestrian and vehicle movements. There will be intermittent noise during this period.	February 2020
Main construction site (corner of Victoria Parade and Napier Street)	Construction of the capping beam is due for completion in February 2020. Please expect intermittent noise during this period.	February 2020

Upcoming and ongoing activity

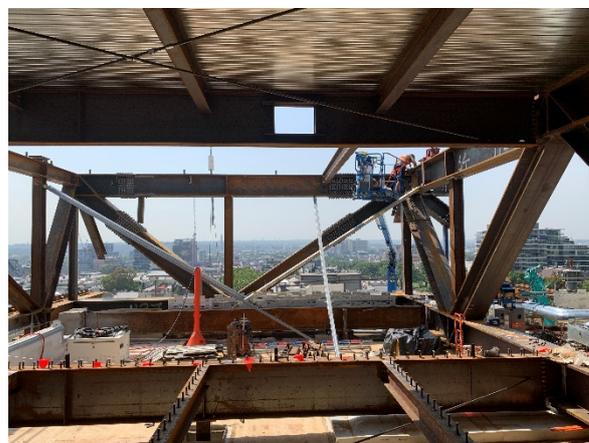

Area	Impact	Timing
Main construction site (corner of Victoria Parade and Napier Street)	Excavation of existing site soil continues, resulting in increased truck movements as soil is removed from the site. A new ramp has been constructed on the Victoria Parade side of the construction site to allow for deliveries to and from the site. Please be aware of construction vehicle movement when using footpaths and roads near the construction site. Please expect intermittent noise. Traffic controllers and signage will be in place to assist with pedestrian and vehicle movements.	Ongoing
Main construction site (corner of Victoria Parade and Napier Street)	Anchoring works continue at the main construction site. Please expect intermittent noise.	Ongoing
Little Victoria Street	Little Victoria Street will continue to incur road and footpath closures to facilitate scaffold and other construction works. Pedestrians using this area are likely to hear construction noise and experience changed traffic conditions. Traffic controllers and signage will be in place to assist with pedestrian and vehicle movements.	Ongoing
Young Street	Young Street will incur additional road closures over the coming months to facilitate overbuild concrete works. Works notification emails will be issued advising of specific dates and times that these works may impact staff and students.	Ongoing

Construction update

Recent construction work includes:

- continuation of bulk excavation
- commencement of anchoring works
- installation of the structural steel truss
- completion of the mega column installation
- installation of Victoria Parade loading bay.

The latest in pictures

Please observe direction and safety signs and follow the instructions of Watpac traffic controllers.
