

Construction of the Saint Teresa of Kolkata Building is currently underway on ACU's Melbourne Campus. See the latest progress on [webcam 1](#) and [webcam 2](#).

### Four-week outlook: How you may be affected

Area	Impact	Timing
Little Victoria Street	Little Victoria Street will continue to incur road and footpath closures. During this time, there will be changes to how you access the Mary Glowrey Building (MGB) from Little Victoria Street.	November
MGB (north and west)	Perimeter scaffold will be installed on the north and west sides of the MGB causing reduced natural light within the building and intermittent noise.	November
MGB (north)	You may hear intermittent noise due to installation of mega columns on the north side of the MGB	November - December
MGB exclusion zones	Exclusion zones will apply to parts of the MGB to enable a safe construction zone and university operating environment while construction works are occurring. Some staff may be working from alternative office spaces during this time. Students are asked to contact staff directly if they need to confirm possible office location changes. Signage will be installed around the MGB to assist with navigation during this time.	7-16 November

### Upcoming and ongoing activity

Area	Impact	Timing
MGB exclusion zones	Exclusion zones will apply to parts of the MGB to enable a safe construction zone and university operating environment while construction works are occurring. Signage will be installed around the MGB to assist with navigation around campus during this time. Please be aware that some classes will be held in different rooms during the exclusion zone period. If you have any questions regarding this, please contact your relevant lecturer or tutor.	December – February
Main construction site (corner Victoria Parade and Napier St)	The southern mega columns are currently being installed within the main construction site. Piling works are also continuing. Please expect intermittent noise around the construction site.	Ongoing
MGB (north)	Pedestrians walking between the Daniel Mannix Building and the MGB may have noticed the new hoarding and walkway installed for the construction works. Please take care and be cautious of vehicles when crossing between the buildings.	Ongoing

## Construction update

Recent construction work includes:

- new door and route to access the MGB from the corner of Little Victoria Street and Young Street
- continuation of the mega column installation
- removal of the north external emergency escape stair
- demolition of the existing plant room located on the roof of the MGB.

## The latest in pictures

Please observe direction and safety signs and follow the instructions of Watpac traffic controllers.
